

We love the access that our Road Chief gives us to America's wonderful sites; it has been perfect for us and our two Jack Russell Terriers. As represented, we find the size, weight, ease of pulling, quick set up, and efficiency of design 'just right.' To us it's luxury travel in our Lexus with a complementary first class, convenient and very comfortable mini-mansion. The Road Chief is eye catching and we never lack for waves, thumbs ups, questions or photographs at every turn and stop. Photography is a passion of ours and we are hiking enthusiasts and always active. We can't think of a better way to do both than with a Road Chief. Thanks Bowlus!
